HOME SCREEN

Play Golf: Tap "Start Round" to begin a round with Golfshot. To start a round at a different facility, tap 'Select Different Facility".

For Pro members, you can select a facility and begin your round.

Free members will be prompted to upgrade to Pro Membership, start or continue the 7-day Pro trial, or continue with Free Edition.

In the middle of a round, or if the previous round has not ended, this button will change to "Resume Round". To end a round in progress, tap "End Round" from the home screen. You must end a current round before you can start another.

HOME SCREEN

Statistics: View all your progress and statistics.

Rounds: All your round information and history.

Course Preview: Visualize your round before you play with 3D previews of the entire course.

Handicap Index[®]: Link your GHIN[®] number for effortless scoring and posting management.

News: Get the latest news from the golf industry in our news-feed.

Awards: Earn and share awards showing improvement of your game.

Tee Times: Search, book, and enjoy up to 80% off GolfNow tee times.

Videos: Get personalized videos from the world's most soughtafter coaches.

Settings: Customize your account, GPS, equipment, and course settings.

ROUNDS

Displays all of the rounds you've played with Golfshot. Shows the round and net score, GIR and fairway percentage, and putting averages. Use the search option to locate rounds at a particular course. Tap on a round for options like viewing the scorecard, tracked shots, and editing scores. < 72 +12 1()() +22 93 +15 Golf Awards

STATISTICS

Analyze your Fairways, Greens in Regulation, Putting, Pars, Scoring, and Clubs statistics. Tap on a category to see it in more detail as it pertains to your specific rounds played.

HANDICAP INDEX®

Golfshot Pro members can link any existing GHIN® Number to Golfshot. You can post your scores here or at the end of a round to

your Handicap Index[®] once your GHIN[®] Number is linked.

View all your rounds posted to your Handicap Index[®], post existing rounds recorded in Golfshot, or post a round manually by tapping the plus icon in the upper right hand corner.

Note: Handicap Index[®] only applies for approved courses in the United States.

COURSE PREVIEW

Utilize the Course Preview feature to gain a new perspective of the course. Take advantage of the full course 3D flyovers to prepare for your rounds and plan out each hole.

X

GOLFNOW TEE TIMES

You can search and book GolfNow tee times with exclusive discounts for Golfshot members. Easily search for tee times in your area or at specific golf courses, and collect favorites to quickly book and invite friends to play.

APPLE WATCH®

Sync your iPhone to your Apple Watch and enjoy Golfshot's features on your wrist. Open the Apple Watch app on your iPhone 5 or newer and select "Start Pairing" to connect your Apple Watch. Follow the iOS prompts that guide you through the pairing process.

Pro members will enjoy accurate distances to all targets, hazards and the front and back of each green, GPS aerial views, score entry and shot tracking.

Free members can see the hole's par, handicap and length as well as GPS distances to the center of the green.

APPLE WATCH® SERIES 2 PERFORMANCE FEATURES

Apple Watch members with an internal GPS watch - Series 2 and 3 can improve their experience by keeping their watch connected to their iPhone via Bluetooth, while keeping their iPhone in their pocket. We have found this enables quicker GPS updates.

Disabling Bluetooth will allow Golfshot to run independently on the Apple Watch 2 and 3. This is an option if you would like to leave your iPhone behind. For this setup, enable "Watch GPS Always On" under the "GPS, Scoring, Caddie" setting in the iPhone Golfshot app settings. This keeps the GPS active to receive quicker distance updates, please note that constant GPS connection will cause a increased battery drain.

Turn off "Apple Watch Scoring" in settings if you prefer not to score on the Apple Watch. With this setting off will automatically advance to the next hole when you arrive at the next Tee Box.

If you have "Apple Watch Scoring" turned on, when you finish a hole and proceed to the next Tee. Golfshot will automatically advance to the score screen.

GOLFPLAN

Powered by Revolution Golf's extensive and dynamic video library with experts like Martin Chuck, Sean Foley, Andrew Rice, and Don Saladino, Golfplan gives you a front-row seat to the best video

instruction. Up your game with a Golfplan Membership to gain access to over 400 game improving videos from our experts, and more.

Access in-depth and extensive golf instruction series from Golfplan's experts. Tap the In-Depth category to rent each video series for one month for \$9.99.

AWARDS

Earn Awards for your accomplishments on the course with Golfshot. Awards can be earned by improving your game, logging your rounds and tracking your shots. Share Awards after your round by posting them to social media or sending them to your friends.

SETTINGS

About & Support: View our user guide, FAQs, rate and share Golfshot, and speak directly to our Support team in-app.

Equipment: Add and manage your active and retired clubs and other equipment.

Account: Basic settings for all your personal information, like name, email, location, and average to par setup

SETTINGS

GPS, Scoring, Caddie: Contains settings that affect your on-course experience, like GPS refresh rate, custom lay-ups, statistic logging, and Aggressive Caddie, which guides you to use longer distance clubs and cut corners on doglegs.

Sync Regions: Download and update courses to Golfshot by country, state, or province

SELECT FACILITY

After you tap "Start Round" from the home screen you will be brought to the Round Setup screen for the closest course to your location.

On the home screen, if you tap "Select Different Facility" you will be taken to the Select Facility screen. Choose facilities nearby to your location, tap "Recent" for recently played facilities, select "Favorites" to choose a course you have saved as a favorite or tap "Browse" to browse and download new ones.

Tap the magnifying glass to search for courses manually.

HOLE LIST

Scroll down to view all holes and their yardage and par information. You can select any hole to start on. If you've played these holes before, other information will appear, like average score, fairway hit percentage, GIR percentage, and putting average. To return to the Hole List, simply tap the back button or swipe left on the GPS screen.

GPS SCREEN

The GPS distances and aerial imagery are displayed on the same screen.

For Pro and Plus members, tap a distance or hazard in the left column and the target will move to that location.

The target distance is listed in the black box at the top of the screen with your recommended club displayed in a blue box to the left. Tap it to view your club stats and change your club selection. The target will move according to that club's set distance.

GPS SCREEN

If you hold down and scroll the target to a new area, the manual setting is engaged, shown with an orange "Reset" box that appears in the bottom left corner. Tap the orange box to reset back to automatic distances.

Free members will only have distances to the center of the green. Pro members will have distances to the front and back of the green, distances to hazards and layups

GOLFSCAPE

To access Golfscape, in the GPS screen, tap on the AR button on the bottom left corner of the screen.

Golfscape is an augmented reality feature that uses the compass and gyroscope on the iPhone to determine direction to the center of the green. As a Pro member, you will receive AR Layups, Hazards and Club Recommendations.

ZOOM

For Pro and Plus members, tap the "+" icon to the right, or double tap the aerial image to zoom in. The target will remain centered as you scroll up or down the hole.

SELECT CLUBS

For Pro members, tap the blue club box at the top of the GPS screen to view your club details and select a new club. Scroll left or right to select clubs from your bag. The average, minimum and maximum distances are recorded, as well as the percentage of targets hit.

Tap the eye icon in the blue bar to see that club displayed in the 3D

flyover preview (see Preview).

Free and Plus members do not have access to club recommendations nor club selection.

Pro members get a 3D flyover preview of the hole. Tap the "Preview" icon in the bottom bar. You can move back and forth along the hole with a swiping motion.

When you manually place the target icon on the GPS screen and tap "Preview", and the location is adjusted and displayed on the Preview screen. Tap the Golfer tab to view a preview from your current position.

Tap the "X" button to return to the GPS Screen.

SHOT TRACKING

Once you've located your ball, tap "At my ball" and you will be taken to the main Tracking screen. Indicate your distance and club used, and whether you hit your target or missed left/right/ long/short. Then tap "Save" and your shot is stored.

Select Tracked Shots from the Round Menu to view your saved shots.

ROUND MENU

Press the "Menu" button at the bottom of the GPS screen to access the Round Menu. Here you can quickly view your scorecard, go to other holes, view hole details, switch the current GPS view, view tracked shots, access fitness data, take photos, edit golfers, switch to Aggressive Caddie, reload GPS imagery, send updated scorecards or end your round.

HOLE AVERAGES

View and compare you statistical progress for a hole. See how you compare against golfers with the same handicap and all averages.

5.1 score	409 FAIR

SCORING

To access scoring, tap the "Score" button from the GPS screen.

You'll be taken to Score Summary with a list of all golfers currently playing your round. Tap the golfers name or pencil icon to enter score. After you've entered a golfer's score, you will be brought back to the Score Summary screen where a grey bar under the primary golfer displays a quick average of stats for that particular hole.

SCORING

In Score Entry, you can adjust gross score, putts taken, tee off club, fairway hit, sandshots taken, and any penalties for you and your secondary golfers. For other golfers in your round, you can only enter score and putts by default. To log their full statistics you must make sure that Log Statistics and Log Putts are turned ON for the Secondary golfers in Settings.

Once your score information is inputted, tap the blue "Save" button and your score is stored.

MAXIMIZING BATTERY LIFE

To get the most out of your battery charge follow these tips:

- 1. Charge it fully before each round
- 2. Turn off Wi-Fi and Bluetooth
- 3. Reduce the screen brightness
- 4. Use Power Save Mode between each shot
